

PACIFIC BUSINESS MONITOR SURVEY 12 – TUVALU FOCUS

INTRODUCTION

The COVID-19 outbreak has caused a global health emergency and an economic slowdown impacting millions of small and medium-sized enterprises (SMEs) around the world, including the Pacific region. As international tourism plays a major role in local Pacific economies, travel bans and restrictions on gatherings in particular are affecting businesses across this region.

Pacific Trade Invest (PTI) has commissioned Fifth Quadrant, an independent research agency, to run a regular survey to understand the ongoing effects of COVID-19 on the Pacific's private sector. The 12th wave of PTI's Pacific Business Monitor surveys includes responses gathered from 1 to 14 March 2021, from 136 businesses across the Pacific region, including 63 female-led/owned businesses.

This report includes data from the top three Pacific countries that provided responses, giving insight into the nuances between different Pacific countries and the effect COVID-19 is having on the private sector.

It is a long road ahead and through the regular PTI Pacific Business Monitor surveys, the objective is to provide governments, donors and stakeholders with valuable data on how businesses in the Pacific are coping.

ABOUT PACIFIC TRADE INVEST

The PTI Network is an agency of the Pacific Islands Forum Secretariat and is the Pacific's leading trade and investment promotion agency.

With offices in Australia, China and New Zealand, the PTI Network develops and promotes trade and investment across international markets.
